Enrichment Programs - Summer Programs, Study Abroad, etc.

The Dallas area offers rich opportunities to learn about healthcare hands on: 13 major hospitals, hundreds of smaller practices, dozens of research venues, and a vibrant community of public health and community outreach programs.

Professional Experience

Working and observing in health settings is a critical aspect of pre-health education.

• **UT Dallas Service Learning** can help you to find volunteer opportunities.
• The **UT Dallas Career Center** can help you identify your strengths and interests, explore career options, and develop your resume and interview skills.
• **Student Organizations** are great places to meet other students who’ve found healthcare experiences in the Dallas area.

Academic Enrichment

Find a summer program or internship:

• **AAMC Database**
• **ExploreHealthCareers Database**
• **RIT List**

Of special note to UT Dallas students:

• **Summer Medical and Dental Education Program (SMDEP)**
  • **Six-week Summer Academic Program** Free program for talented pre-med and pre-dent students completing their freshman or sophomore years of college. Offered at 12 sites around the nation. **Apply ASAP!**
• **Retina Foundation of the Southwest**
  • **Undergraduate and Post-Graduate research opportunities in ophthalmology.**
• **Texas A&M College of Dentistry**
  • **Summer Pre-Dental Enrichment Program (SPEP)** - SPEP Collegiate II is a six-week summer program which provides college and post-college students an opportunity to:
    • prepare for and successfully take the DAT,
    • strengthen their academic science background,
    • learn more about the field of dental medicine,
    • broaden their interest in biomedical and clinical sciences,
    • learn useful study patterns for professional study,
    • increase their competitiveness for admission to dental school, and
• enhance their success once admitted to dental school.

**Deadline: January 31**

• **UT Southwestern Medical Center**
  - **Summer Undergraduate Research Fellowship Program (SURF)** - Enhanced research training of natural science undergraduates who are interested in obtaining the PhD or MD/PhD degrees. 10-week program, $4000 stipend. **Feb 8**

• **The University Of Texas Southwestern**
  - **Quantitative and Physical Sciences - Summer Undergraduate Research Fellowship (QP-SURF)** - Enhanced research training of physics, mathematics, chemistry, and computer science undergraduates who have completed the sophomore year. 10-week program, $4750 stipend. **Feb 8**

  • **Green Fellowships** - This program offers biochemistry majors from UT Dallas an intensive research training experience at the prestigious UT Southwestern Medical Center. The program replaces a spring semester at UT Dallas. **Oct 15**

• **Parkland Hospital**
  - **Clinical Experience at Parkland Hospital** - Apply to gain clinical experience at Dallas's public hospital, Parkland.

**Travel and Service**

Health related community service initiatives, church missions, and foreign service ventures fall into this category.

• **UT Dallas Service Learning**

• **UT Dallas Education Abroad** - Study Abroad

• **Remote Area Medical**

• **International Service Learning**

• **Atlantis Project**

• Dozens of Dallas-area churches that support **medical missions**
